

# Concept Development and Experimentation (CDE)

## Multinational Interoperability Working Group

Mr Jack Klevecz

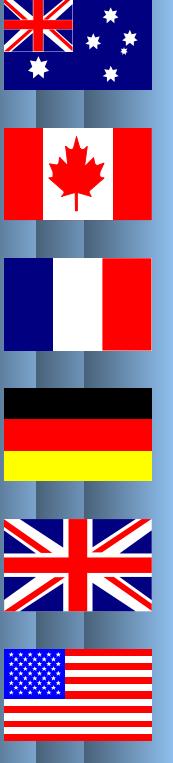

Chairman, US

# CDE MIWG

## Accomplishments

- Raised awareness of MN CDE initiatives
  - Developed CDE MIWG Baseline Paper
  - Exchanged national CDE programs to enhance understanding of national activities
  - Identified opportunities for MN involvement
- Developed the Models & Simulations and Logistics subgroups

# CDE MIWG Work Plan

- **Task:**
  - Develop a MN CDE Calendar
    - Identify opportunities for enhancing MN interoperability
    - Identify conflicts that impede MN CDE
- **Status:**
  - Baseline Paper was improved and updated in May and Nov 03
- **Way Ahead:**
  - Monthly CDE MIWG Teleconference
  - MN CDE Calendar by Mar 04

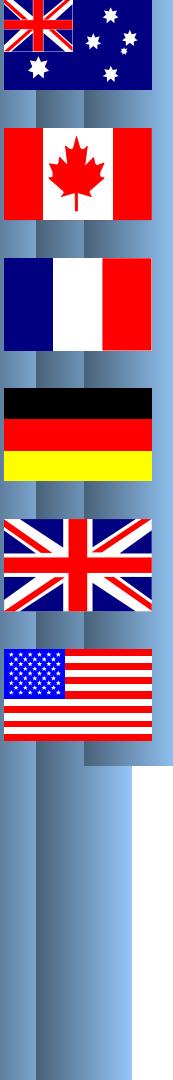

# CDE MIWG Work Plan

- **Task:**
  - Distribute, through the MIC, MN and appropriate national experimentation results and analysis
- **Status:** New initiative since last MIC
- **Way Ahead:** Distribute results and analysis for MN LOE 1 & 2, Unified Quest 03, Pinnacle Impact 03, German MN IO Experiment

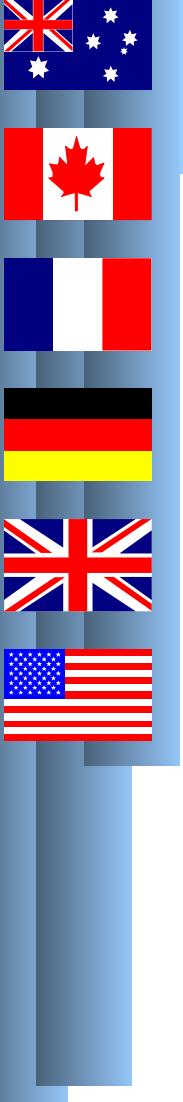

# CDE MIWG Work Plan

- **Task:**
  - Distribute, through the MIC, appropriate MN and national concepts
- **Status:** New initiative since last MIC
- **Way Ahead:**
  - A proposed event:
    - Compare future joint operational concepts
    - Conduct interoperability gap analysis

# CDE MIWG Issue

- **Discussion:** National experimentation activities include the analysis of MN interoperability issues
- **Options:** Member nations need to leverage the MIC, vice other venues, as the principal forum for MN interoperability issues
- **Recommendation:** That the MIC Principals advocate to their authorities for the analysis of MN interoperability issues in their national experimentation activities

# CDE MIWG Decisions

- Approve work plan
- Issue decision
  - National experimentation activities include the analysis of MN interoperability issues
